Hello, I'm Blinky. I'm a ghost!

Will you help me appear on your computer? If so, please follow these instructions:

1. Select the entire Spreadsheet. Set both Horizontal and Vertical alignments to center.
2. Set all Columns to size '2.00' and all Rows to size '20.00'
3. Give me some colour by formatting the appropriate Cells' shades to orange and black.
4. Set Font colour to white in the following Cell Ranges: F5:G7, K5:L7
5. Merge the following Cells: F10:G10, K10:L10, G11:H11, J11:K11, H12:J12 (Select them first!)
6. Enter (type in) the values in my eyes.
7. Enter Formulas(!) in my mouth, so the same values will appear as above.

(Mr. Zsolt told me that the Excel you are using is in Hungarian. Let me help you with some words! Alignment: igazítás, Appear: megjelenik, Appropriate: megfelelő, Font: betű, Horizontal: vízszintes, Merge: egyesítés, Vertical: függőleges.)
